

# *Your Comment is Invited*

The Idaho Transportation Department (ITD) has begun an environmental study to evaluate interstate access and congestion issues in the northeastern Pocatello and northern Chubbuck areas. ITD has developed some preliminary concepts that address these issues. (see study area map on right)

**A Public Open House will be held Monday, April 4, from 4 - 7:00 p.m. at Tyhee Elementary School** to gather public input and identify issues concerning concepts being considered. Public input will provide information that ITD can use during the design process to minimize public and environmental impacts.

At the open house, project officials will be available to provide information about the study, listen to your concerns and comments, and answer questions. Several displays illustrating the study's preliminary concepts, purpose, location, environmental evaluation process, and schedule will be available for review.

## ***I-15 Environmental Study Public Open House***

**Monday, April 4th  
4 – 7 p.m.**

**Tyhee Elementary School  
12743 W. Tyhee Rd.
